About Company

Tradezcompany entering the challenging and complex world of products and services sourcing and trading **Agricultural, Mineral, Textiles, Food, products from INDIA** and Abroad.

Our public relations with Msme, importers, exporters, and wholesalers located in different countries, with different cultures, under different jurisdiction and laws represent such an invaluable asset and expertise which we make available and share with our clients in our mission to fulfill their requirements.

Our in-depth knowledge of the so-called combination Buyer-Seller helps in two ways:

- To keep and enhance the link with all our producers and providers who increase the sales of their products and benefit of a trusted professional source of business
- To offer our clients exclusive opportunity and service of high value in terms of quality, price, professionalism, timely deliveries and logistic assistance.

Introduction

We represents an avant-garde model of sourcing company which satisfies and rewards both sides of the “coin”. We are a Trade fascilitator company.

we help creditable Buyers by streamlining the procurement process, ensuring deal with vetted and credited suppliers, negotiating the best deal and starting the basic order process

- we help existing Suppliers by lowering costs and struggles for sourcing new clients, assisting in the approach to more advanced markets, propagating their products through our network of relations and connections

Tradezworld constantly searches and vets new Suppliers and, at the same time, leverages existing supplier and service provider relationships from preceding commitments, to source new Buyers. Our utmost priorities are:

- to engage new Buyers and get more requirements to be evaluated and accomplished
- to boost and increment the turnover of manufacturers and service providers we are dealing with

International Finance Structuring

International Trade Finance

International trade finance refers to the financial instruments and services designed to facilitate and support international trade transactions. It provides exporters with the necessary funds and risk management tools to mitigate the challenges associated with cross-border trade.

Benefits From International Trade Finance

International trade finance is beneficial for various stakeholders involved in global commerce

- **Exporters**

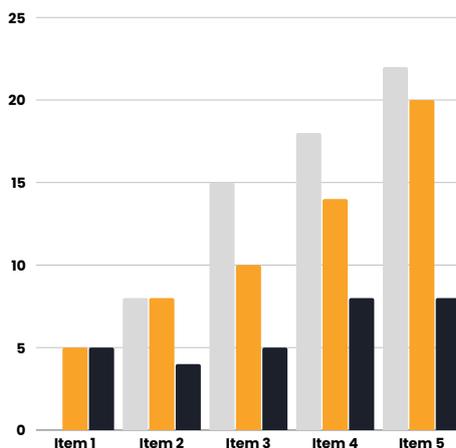

Exporters can benefit from improved cash flow, reduced credit risk, and access to working capital to expand their international trade operations.

- **Importers**

Importers can leverage trade financing to negotiate better payment terms with exporters and manage their cash flow effectively.

- **Banks and Financial Institutions**

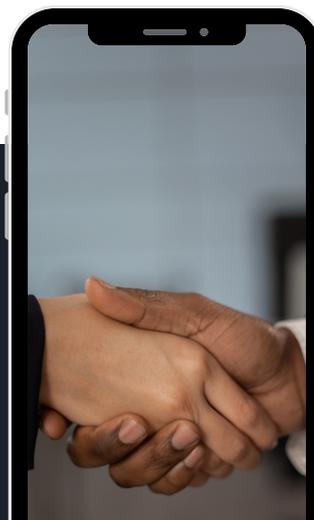

Banks and financial institutions provide trade financing solutions to exporters, importers, and other intermediaries. They earn income through fees, interest, and commissions.

Our Expertise

We help buyers by protecting their money by a foreign bank bringing in between to safe guard the quality of product along with keeping the money safe in bank to actual delivery of goods
